An exploded view diagram of a mechanical assembly, likely a pump or motor component. The components are numbered 1 through 8. Component 1 is a long shaft with a flange at one end. Component 2 is a small circular washer or spacer. Component 3 is a small circular washer or spacer. Component 4 is a circular flange or plate. Component 5 is a circular flange or plate. Component 6 is a circular flange or plate. Component 7 is a large circular gear or impeller. Component 8 is a small circular washer or spacer.

### Planetary, 1st/Rev Brake Piston & Output Gears

This exploded view diagram illustrates the assembly of a mechanical unit, possibly a pump or motor. The components are arranged in a hierarchical manner, showing the relationship between the main housing and its internal parts. Key features include:

- Main Housing:** The central component, shown in an exploded view with its cover and internal parts.
- Motor Unit:** Located at the top right, featuring a gear-like output shaft.
- Internal Components:** Various smaller parts, including bearings, seals, and electrical connectors, are shown in their relative positions.
- Callouts:** Red callouts with numbers 450, 102, and 950 point to specific components or assembly steps.
